

Aqsa Batool

Full Stack Developer | Software Engineer

+923197095279 | Islamabad, Pakistan | [Email](#) | [LinkedIn](#) | [Github](#)

Full Stack Developer skilled in React.js, Next.js, Node.js, and PostgreSQL, with experience delivering fast and reliable applications. I enjoy solving problems, learning quickly, and building secure, user-centered products with clean and accessible interfaces.

WORK EXPERIENCE

GrowthRune - *United States*

August 2025 - Present

Full Stack Developer (Remote) - [GrowthRune](#)

- Developed and maintained full-stack features using Next.js, Node.js, React Query, and PostgreSQL, ensuring smooth performance and clean user experience across the product.
- Collaborated closely with designers, product managers, QA, and fellow developers to bring features from concept to production.
- Improved frontend structure by introducing Storybook components, ensuring consistency and reducing UI bugs.
- Worked on accessibility and performance improvements, making interfaces inclusive and faster.
- Wrote Cypress test cases for core flows, contributing to a more stable release cycle.
- Engaged in pair programming, code reviews, and agile ceremonies, keeping the development process efficient and transparent.

ByteShifted - *Denmark*

June 2024 - July 2025

Associate Web Developer (Remote) - [ByteShifted](#)

- Developed responsive frontend interfaces for platforms like [TyreEurope](#), [HostPepper](#), and [DAEK Skandinavian](#).
- Integrated [RackBeat](#) APIs for real-time inventory and order management.
Built admin panels with user management, system settings, and custom API integrations.
- Designed and developed [ByteShifted](#)'s official website from scratch, focusing on mobile performance and modern layout.
- Mentored junior developers and contributed to code reviews, improving code quality across the team.

NextTier - *Denmark*

Jan 2024 - May 2024

Frontend Web Developer (Hybrid) - <https://www.linkedin.com/company/nexttier/>

- Delivered high-performance UIs for financial and e-commerce projects including [CashOut Express](#), [FluxFunds](#), [Phone2Funds](#), [Gift4Cash](#), and [Cake Shop](#).
- Worked with designers and backend teams to build pixel-perfect interfaces and integrate APIs smoothly.
- Improved page performance and responsiveness across multiple client projects.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js (App Router), Storybook, React Query, Tailwind CSS, Shadcn
- **Backend:** Node.js, Express.js, RESTful API Development, GraphQL API Development, OAuth 2.0
- **Databases:** PostgreSQL, MongoDB
- **Testing:** Cypress, Jest
- **DevOps:** Git, Github, GitHub Actions, CI/CD Pipelines, Docker
- **Cloud Platforms:** AWS, Heroku, Netlify, Vercel
- **Security:** Web Security, Authentication/Authorization
- **Tools:** Jest, Postman, Swagger, ESLint, Jira, Doppler

EDUCATION

National University of Computer and Emerging Sciences - *Pakistan*

Feb 2022 - Dec 2024

Master's in Computer Science — Specialization in Cybersecurity

Relevant coursework: Cloud Computing, Ethical Hacking, Network Security, Machine Learning, Deep Learning, Cryptography

University of Kotli AJK - *Pakistan*

October 2016 - Feb 2021

BS in Computer Sciences
